

The new Dotco Venturi X

2-in-1 Air Blow Gun and Vacuum System.

DOTCO[®]

Simple. Versatile. Robust.

Powerful debris removal.

Dotco tools are known for their durability, dependability and versatility. They are viewed as one of the leading brands in the material removal marketplace. The quality is made possible by an excellent design combined with outstanding technology, producing tools that are small, comfortable and lightweight, being robust enough to withstand tough treatment. This includes the new Dotco Venturi X - the 2-in-1 Air Blow Gun and Vacuum System. Your support keeping your work station clean! It will be indispensable in many industry sectors: in fabrication shops, with machine builders, in the automotive industry, with wood working, in the aerospace industry, on shipyards, in foundries etc.

also to blow clean your machine tools

can extract metal shavings, small parts, dust, wood chips etc.

robust and lightweight die-cast aluminum housing

alongside every lathe and mill as well as every grinder, polisher, drill etc.

a perfect companion for your Dotco drills and grinders

even for cooling many different industrial processes

includes accessories, a reusable bag and a convenient blowmold carrying case

quickly changes between a powerful blow-gun and an effective vacuum system
